

Ryman Hse Plot 2024.7

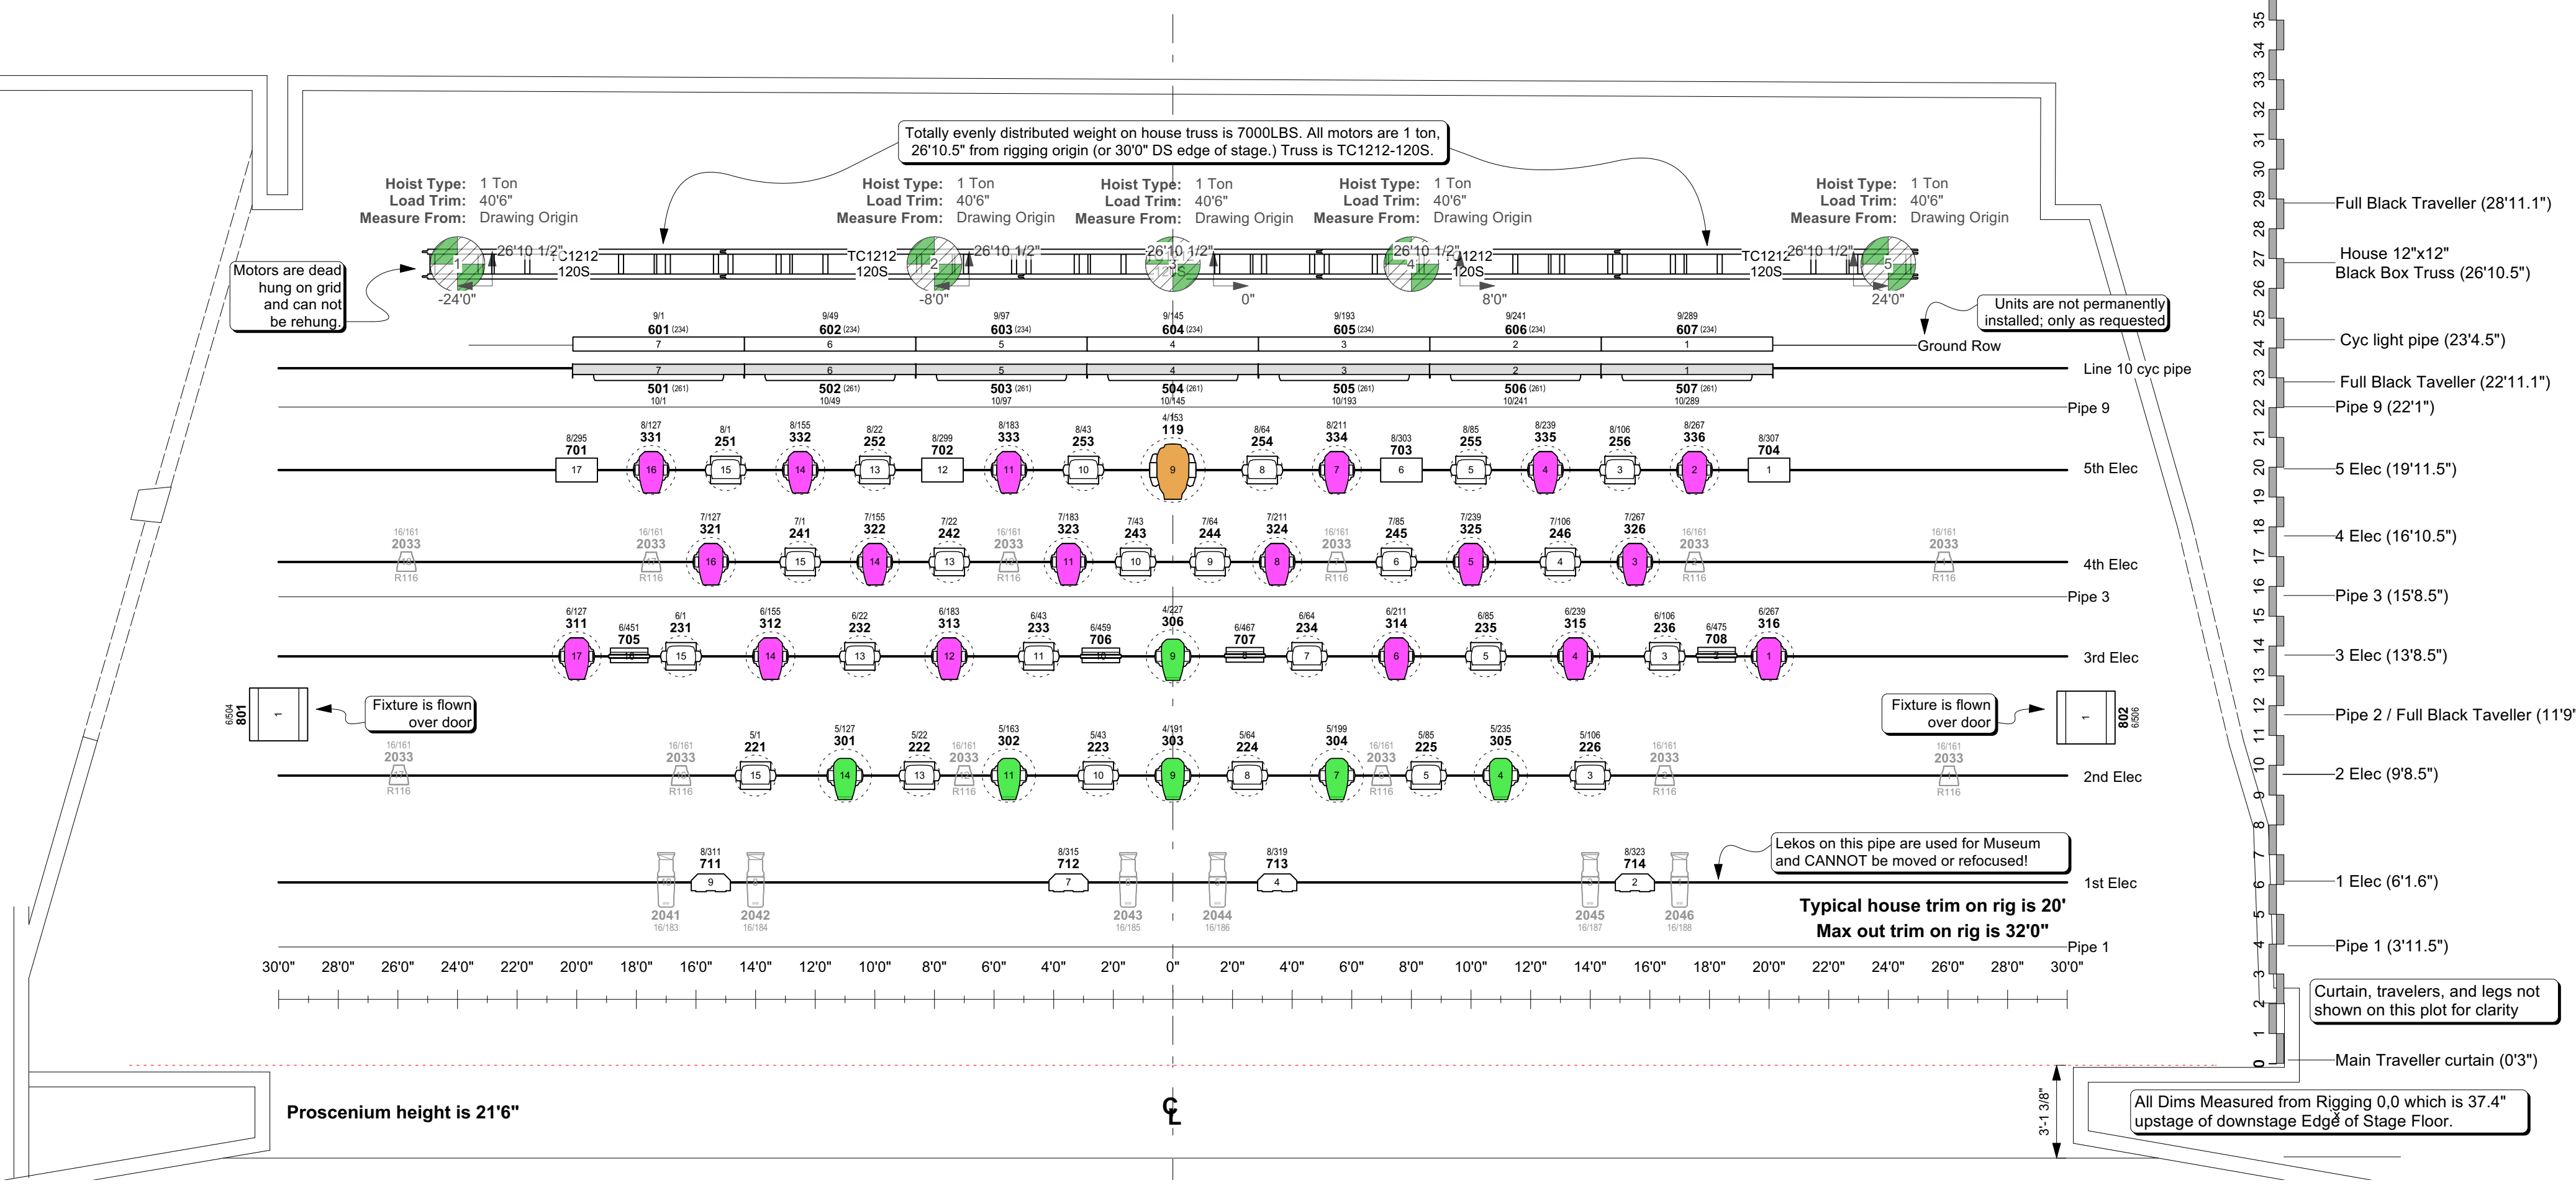

SCALE: 1/4"=1'0" DATE: 07.24.2024 REVISED: 08.05.2024

Prod Mngr: Les Banks (lbanks@ryman.com) c: 615.491.5551
Lighting Dir: Brandon Webb (bwebb@ryman.com) c: 615.509.5793

DRAWN BY: Scott Leathers

- GENERAL NOTES**
- Rigging origin is 37.4" upstage from the DS edge of the stage, which is the farthest DS rigging point.
 - Highest out trim of Electrics is 32'0".
 - House Fixtures 104, 106, 107, 109, 303, 306, 119 are available to use with in house FOLLOW-ME 2 system.
 - Gray fixtures are part of architectural lighting system. They do not move and cannot be refocused.

- REVISIONS**
- v1.0 (2024.07.24)
 - updated LW data reconciled with House LD and imported into plot.
 - Plot revisions (per House LD) have been implemented.
 - All museum and/or architectural lighting fixtures have been moved to a gray layer.
 - v1.01 (2024.08.01)
 - A lot of clean up under the hood.
 - Schematic views cleaned up and layer added for better 2D printouts.
 - Turned on a lot of invisible viewpoints missing from assigned sheets. All viewpoints and sheet elements locked.
 - v1.1 (2024.08.02)
 - Plot has been reviewed by House LD and all notes incorporated.
 - New channels and data have been imported for IE Ovations.
 - v1.15 (2024.08.05)
 - updated power assignments and addresses imported from LW.
 - a few final notes updated per house LD.
